Strategic Business Partnership with leading IT Company from India

Gateway Technolabs (www.gatewaytechnolabs.com) is leading Global Sourcing and IT services company from India with offices in 13+ Countries and in the business for 14 years now. As an expansion strategy, we are looking to grow our strategic business partners in Denmark and Norway as a region.

About Conference

It has been observed that such kind of partnership have always been a key factor to success and it will always be mutually beneficial to both the end. Partnering with us will give you an edge among the competition within the local market vendors and also bring a huge amount of support from a large and extensively experienced technical team of Gateway Technolabs which ensure an exponential growth in the region.

Gateway Technolabs will also bring a strong support through its Strategic Technical Consulting Team, helping you to offer consulting and analysis for choosing the best technology, tools and platform to design cost effective solution for your end customers.

We would like to build business relationship based on a common vision, mutual trust, professional integrity and on-going mutual understanding. Therefore, partners that we are looking for have more profit gaining flexibility in this cutting edge IT sector.

Who can be our partners?

- Person having good network and willing to be an entrepreneur
- SME company who want to expand globally and would like to support to their customers round the clock
- IT companies who want to keep focusing on their existing core expertise and on the same side also not wish to lose their customer because of lack of proper skilled resources.
- Company who is looking for a partner where he get one stop solution for their all IT needs starting from designing their corporate identity, website, web application, desktop application, mobile application, print media, remote infrastructure management, rich internet application development, mobile application development

Companies who are looking for technology partner for all the technologies starting from Microsoft Platform, Java, Opensource, Multimedia services like Remote infrastructure management

We endorse profit-sharing as a means to expand and strengthen our reach and our partners' capabilities. If your company is interested in working with us in a mutually beneficial relationship, please Contact us.

We are in process of evaluating companies / consultants who are looking to explore further dialogue with us to know more about the strategic business partner model. To get more information and to initiate further dialogue with us, please contact us and we can fix up personal meeting to discuss further in Denmark and Norway.
