Strategic Partnership between Gateway TechnoLabs and ScanSaaS to enter in the Nordic IT Services Business

Gateway TechnoLabs and ScanSaaS signs strategic partnership agreement to enter in the Norwegian IT Services Business

ScanSaaS expands its cloud capacity and strength through strategic alliance with an Indian Global Sourcing and IT services company – Gateway TechnoLabs. With this partnership, ScanSaaS leverages capacity to offer world-class IT services with quality and capacity of the highest level in the Norwegian and Nordic marketplace. GTL has demonstrated a very successful growth in last 14 years by expanding themselves in almost 13 countries now. ScanSaaS specializes in providing business productivity solutions and to help organizations reduce their cost by taking advantage and benefits of transformation of IT services to the Cloud.

Gateway TechnoLabs with its 14 years of extensive experience in global sourcing and IT services business and with a team of 1300+ experienced IT resources globally can leverage a huge amount of capability to offer IT services with quality in the Nordic Market place. With this strategic partnership, GTL is going to strengthen its presence in the Nordic Region through the local representation of ScanSaaS.

ScanSaaS is Microsoft Cloud Launch Partner and will get a strong technology support from Gateway TechnoLabs who expertise in Microsoft Technology being Microsoft Gold Partner.

Microsoft is very aggressive with its push on Office 365 as the next generation platform for its office applications, where in addition to the traditional desktop applications; you will get WebApps – the cloud version of applications. Moreover, Microsoft Exchange Online, SharePoint Online and Lync are integrated in Office 365. This will strengthen organization's productivity as you get excellent communication and collaboration tools at a lower cost of IT investment.

GTL and ScanSaaS are taking position and are ready to assist businesses that will move to the cloud with Microsoft products. "We will help large and small businesses to become more productive and profitable" Says Hans Johannessen, CEO of ScanSaaS. ScanSaaS provide sales, cloud business development, project management and on-going daily contact with the customer, while GTL provides Consultation, Project Development and Management, IT expertise and capabilities for Managed services and application development at the highest level. Together we give the customer cloud solutions for a connected world.

"With our wide range of technology portfolio and IT services, GTL will expand its business in Nordic Region through this strategic cooperation with ScanSaaS. Through the local presence of ScanSaaS and providing the backbone of our capabilities of IT services, GTL is aiming to achieve a significant growth in coming years for its business in Nordic market place" Says Rahul Ganatra, Director – Global Software Sales of Gateway TechnoLabs.
