Gateway to expand its service offerings Down Under

Gateway is all set to expand its Asia Pacific presence by offering IT services to serve the Australia and New Zealand markets. Clients can reap the benefits of our Microsoft Dynamics, CRM, Mobile Application Development, and Open Source Technologies with our planned risk management strategies in terms of geographic distribution, domain spread, Technology distribution, low cost of operations & Currency risk management.

Managing Director of the Gateway Mr. Niraj Gemawat said:

“It is time for Gateway to take the next step in creating a strong presence in the Australian market. Our commitment is to ensure that Australian customer base can benefit from our services across various IT services of the highest order. My Co-directors and I are excited about the new venture and are convinced that in a very short span of time we can ensure Gateway has pride of place within the Australian IT market place. From companies with global presence to early stage startups, we have worked on a diverse list of clients. We have strived hard in building and sustaining our relationship through effective and efficient delivery of our past engagements and continue our endeavor to be at the forefront of customer satisfaction. We can help our clients to deliver high quality, reliable and cost-effective IT services by enabling them with a faster time to market using our niche skills on demand that helps them to mitigate the risk and thus concentrate more on the core functions of the organization.”

Gateway has vast experience in technical competencies including Microsoft Technologies, Java, Open Source and Mobile & Gaming technology domain helping us serve our customers at greater pace to their heterogeneous business requirement. Gateway possesses a strong foothold in several industrial verticals including Gaming, Healthcare and Print & Publishing.
