HealthCare Portal – ePharmacy

1. Scope

The E-Pharmacy is a comprehensive Health Portal website that would cater meaningfully to both medical e-community and general e-community. It has features as:

- **Health channels:** For men, women, kids, mental health and others.
- **Drug Index:** It has extensive information of various medicines.
- **Database** of hospitals, doctors, ambulances, nursing homes, blood banks in over 280 cities which the patient can identify as per his requirements.
- **Health Calculators:** These include target heart rate calculator, Ideal weight calculator, Pregnancy Due Date Calculator, body mass index calculator etc. where the individual can view and compare with his personal specifications.
- **Registration** for the doctors, students and others visiting the site.
- **List** of various medical, ayurvedic and homeopathic colleges across India.
- **Create your page** Section was meant for registered medical practitioner to create their home page and create profile.

2. Benefits

The Client was able to project themselves as a company that is not only in retailing quality medicines through the outlets but also believes in imparting knowledge related to health care to masses through the medium called Internet.

3. Technology

HTML/DHTML, ASP 2.0, ISAPI, MS Commerce Server, Visual InterDev

4. Project Duration

Project Duration: 30 Person Months
